MINING, BUSINESS AND STOCKS

NEVADA AFTER MINING CONGRESS

Utah Delegation Will Be Asked to Pull for Reno as Meeting Place.

FOR NEXT YEAR'S SESSION.

Letter Sent to Walter C. Orem of This City-Advantages of Nevada City.

Secretary Bride, having secured the promise of two of the leading mining and publicity men of California, says a Nevada exchange, that they will endeavor to swing the support of the California delegation of the Joplin session of the mining congress to the Nevada delegation in its fight to have Reno named as the meeting place for the American Mining congress of 1908, last night wrote Walter C. Orem, a leading mining man of Salt Lake City, and asked him to support Nevada by having the Utah delegation stand by the delegation of this state, Secretary Bride now believes that he will be able to secure the support of the California, Utah, Arlzona, Oregon and Washington delegations without any trouble and that he may be able to secure the sup-port of other states before the congress

port of other states before the congress meets in Joplin on November II.

The Nevada Commercial league is particularly anxious to have Nevada mamen as the meeting place of the congress of 1998, and secretary Bride is now acting under instructions of the officers and directors of the league.

The city of Reno is an ideal place for the meeting of the American Mining congress, as Reno is the hub of the greatest mining country in the world and can also boast of some large mining properties of her own. Right to the north of the city is the extensive Peavine district. South of Keno is the Washoe district and the wonderful Comstock, which has produced millions. Then to the east are the Olinghouse and White Horse districts. There districts are all right at the very doors of the White Horse districts. These districts are all right at the very doors of the city, but, within a day's ride, the greatest gold fields of all the world are now being developed—the great Builfrog. Goldfield, Tonopah and Manhattan districts. Reno is without a doubt the most favorable place in the United States for a session of the American Mining congress.

ON MINING EXCHANGE.

Local Market in Fairly Good Form -Closing Quotations.

There were some weak spots in the local mining stock market today, but in the main, prices held fairly steady. Uncle Sam Consolidated moved off a Uncle Sam Consolidated moved off a few points, but recovered, while May Day and Colorado held up to the quotations of yesterday. Seven Troughs appeared to he in unusual demand and closed in good form after the transfer of more than 5.000 shares. No sales of Ohio Copper were reported, but brokers bid \$2.50 for it. The closing quotations and sales were: UNLISTED STOCKS.

JUMPERS AT GOLDFIELD.

Goldfield. Nev. Oct. 30 .- Lots are be-

ing jumped all over town today, as a

result of the recent decision of the land office, approving the application of the Goldfield Squatter association for patents to lots owned by its members and leaving the settlement of land to adjudication of the state district and

reme courts. he renewal of the squatters will hably lead to endless litigation be-

en lot jumpers and the present own-of the ground.

n exciting seens followed the at-

An exciting seems to formed the at-lement of three men to jump three lots owned by the Homer Wilson Trust company, and located in the heart of the city. Attended by a crowd of near-iy a thousand men and buys, Mr. Wil-son marched to the seems and the buildings which the jumpers had start-ed to creet were seized and thrown into

ground, but the sentiment of the crowd was against them, and a dozen volun-tegrs made short work of the embryo chacks and tent houses.

entirely.

The closing of the King at this time would be none less than a terrific blow to the camp of Park City. It would mean a winter of hardship for many of its citizens and it is to be hoped that the big company over which Mr. Keith presides will not slow down in the slightest degree. The fact that the Daly West, Daly, Ontario and Little Bell mines are out of commission and not producing a pound of ore, it would seem, is disaster enough for a while.

SMALL WRECK NEAR PARK CITY

Transactions on Small Scale Engine "Turns Turtle" on Down Resolution Passed Today by Grade, but No One Injured And Little Damage Done.

> (Special to the "News.") Park City, Utah, Oct. 31.-A small wreck occurred in the Rio Grande yards here at 11:30 this morning, in which engine No. 151 turned completely over without doing any particular injury. The engineer, Joseph G. Bywater, and fireman, D. B. Tripp, succeeded in jumping just in time to avoid being pinned under the locomoavoid being pinned under the locomotive. The ongine was engaged in switching and at the time of the accident was letting six freight cars down a heavy grade. The load was too much and the engineer lost control of the cars and they dashed down to the bottom of the grade, where the engine and one ear toppied over, the engine "turning turtle" completely. Seeing the tip over was inevitable, the engineer and fireman jumped, escaping with a few scratches. Both men are residents of Salt Lake. No damage was done to the cars.

LAYOFF TRIFLE EARLY.

Rock Island Feels Financial Situation -Repotrs Traffic Flourishing.

Chicago, Oct. 31.—The Rock Island railroad system yesterday laid off 2,500 men from its construction and track forces. Although the road centers in Chicago, the order did not affect any employes in this city and the maintenance crews were not disturbed. The construction crews in every western state where the road goes, from Illinois to Texas, were reduced by the number mentioned.

to Texas, were reduced by the number mentioned.

President B. L. Winchell said the order did not mean there was any trouble or that traffic or freight was any less this year. He admitted that the financial situation had something to do with it, as the cutting down of the force usually does not come until the latter part of November.

"The men haid off were engaged in improvement work in the various states," said President Winchell, "and the number is no larger than in other years. We are not touching the maintenance crews. Traffic conditions are still flourishing and there is no sign of a let up in that quarter.

LAST RAIL NOW LAID.

LAST RAIL NOW LAID.

Los Angeles, Oct, 30.—The last rail on the Tonopah and Tidewater railroad was laid today at Gold Center, Nevada, according to advices received at the headquarters of the company in this city. This completes the direct line into Beatty and Rhyolite, Nevada, and affords direct connections with Tonopah and Goldfield. It was announced that regular freight service would be inaugurated on Nov. 25, and that passenger service—would begin Dec. 1.

GEORGIA IN LINE.

Atlanta, Ga., Oct. 30.—After Jan. 1 next it will be unlawful for the rait-roads and express companies in Georgia roads and express companies in Georgia to issue free interstate transportation except under the same conditions governing interstate commerce under the Hepburn law. Orders to this effect were issued today by the state railroad commission. The orders also require all terminal companies to furnish the state commission with copies of their charters. A bill similar to the provisions of today's order was passed in the state senate at its session last winter but was defeated in the house.

BIG CUT ANNOUNCED.

C. A. Walker, general agent of the Chicago & Northwestern, received a message from the east this morning, which announces a rate of \$10 between Chicago and New York has been established by the Erie. This will be effective on and after Nov. 20, and while subject to change upon legal notice, will remain in force until Dec. 20 at will remain in force until least. This is a cut of \$6 between the two cities, and makes the trip through the east very reasonable.

THROUGH MASON VALLEY.

If Yerington has it figured out right that bustling little camp is to be put on the main line of the Southern Pacific. It is said the Southern Pacific is contemplating the construction of a line from Wabuska to Benton through Mason valley. This would offer the S. P. an opportunity of getting into Los Angeles by way of Hazen, eliminating a hard climb over the Whitmountains, and doing away with an unprofitable piece of track. Mason valley is a good rich country and is watching every move carefully.

WESTERN MARKET LETTER.

Special Correspondence, Kansas City Stock Yards, Oct. 30 .-

There was a fairly good supply of range cattle on the market last week, although the total cattle supply was 15 per cent smaller than in recent weeks. The run is only two-thirds as heavy today, 12,000 head, as on recent Mondays, the cause of the reduced supply being the break in prices since the middle of last week, amounting to 25 to 50 cents. The recent financial flurry in the east, resulting in fewer orders for live stock or for meats from that section, has caused buyers to be extremely conservative in purchasing killing grades, and the situation is not improved any foday. In stock and feeding cattle conditions are different, as after the heavy decline in these classes last week a great many buyers appeared on the market its search of bargains, and cleaned up last week's supply at prices slightly better than the low time of the week. Trade in this kind was also better today than in killing kinds. Most of the range stuff here last week arrived after the break became effective, and sales of Colorado beef steers ranged from \$3.75 to \$4.30, with a few steers up to \$4.60, cows at \$2.50 to \$5.35. Colorado stockers today at \$2.50 to \$4.35, some choice. New Mexico feeders last week at \$4.75, other New Mexicos and panhanaes \$3 to \$4.25, cows \$2.49 to \$3, canners \$2 to \$2.34, voal calves \$4.50 to \$5.50, heavy salves \$3 to \$4.25, bulls \$2.25 to \$3.

Sheep and lombs did not feel the effect of the recent depression till Friday of last week, when they started downward, but they are getting hard hit today, prices off 20 to 30 cents, run 10,000 head. Of course, the same influences are at work in the markets for all the different classes of live stock, and when the situation clears up, as it will no doubt soon do, all kinds will feel the improvement allke. Killing lambs sell today at \$6.40 to \$6.75, wethers and yearlings \$4.90 to \$5.50, ewes \$4.60 to \$5.70, feeding lambs \$5.70 to \$6.25, ewes \$4.51 to \$5.50, feeding lambs \$5.70 to \$6.25, ewes \$4.51 to \$5.50, feeding lambs \$5.70 to \$6.25, ewes \$4.51 to \$5.75, good breeding ewes still communding stiff prices. weeks. The run is only two-thirds as heavy today, 12,000 head, as on re-

\$6.25, ewes \$4.25 to \$5.75, good bree ewes still commanding stiff prices.
